ORALTY CONTEST CLOSEST ON RECORD BELLEVILLE SINCE ITS INCORPORATION

German Was Elected Mayor By A Majority of 9—Two of The Old Men, Wallace and Robinson, Were Defeated—Eight of The Aldermen Candidates Endorsed By The Property Owners' Association Elected

EXCITEMENT PREVAILED WHILE WAITING FOR RETURNS

Yesterday was anything but an ideal day for a municipal election. In the early morning a deluging rain was falling, and continued until about 11 a.m., when it was succeeded by a heavy fog, which finally settled in the afternoon. These depressing conditions in no wise discouraged the workers on behalf of the Mayor-elect, and the contest was the closest since the incorporation of the city. The contest was the closest since the incorporation of the city. The contest was the closest since the incorporation of the city.

After the polls had closed, the returns were being counted. The contest was the closest since the incorporation of the city. The contest was the closest since the incorporation of the city. The contest was the closest since the incorporation of the city.

After the result was known a public meeting was held in the City Hall, which building was filled to its capacity. Mayor-elect Ackerman was loudly applauded upon ascending the platform. He thanked the electors for placing him at the head of the polls. His course in the Council had been decidedly better appreciated, and at the end of the year he had no other word to say but that the electors would be still confident in him. He wished all a Happy New Year.

At the meeting the electors of Murney Ward for electing him for the third time. He expressed all his power for good and evil. He could endorse the words of the late Dr. John A. Macdonald: "A British subject was born, and a British subject I will die." He (the speaker) was born in Belleville and he wanted to die in Belleville.

TERRIFIC BATTLE WITH ANARCHISTS

Fight Took Place In A House In The East End of London

MANY WERE KILLED

Nine Bodies Of Anarchists Were Found In Ruins Of House

(Continued from page 1)

LONDON, Eng., Jan. 3.—A tremendous battle, and one complete of the Scots Guards, assisted by the first department, fought a desperate battle with a band of anarchists at a house in Sidney Street in the east end of London. The police were crowded by the anarchists with bullets. Six dead anarchists were found in the ruins, and others are believed to be dead. A score of the attackers were wounded. Nine bodies of anarchists were found in the ruins of the house.

BLOODHOUND PACK TEARS MAN ASSAULTED, OWNER EXHAUSTED

MONT VERNON, N.Y., Jan. 3.—A curious case is being reported. A bloodhound pack, owned by a man, attacked a man, and the owner was exhausted.

The bonds, which followed the trail from Laramie, Wyo., into the country, were getting close to the suspect, who was in a shed. When out for the light, the man was unable to get out of the shed, and was pinned down by the bloodhounds. The man was exhausted.

CASE OF PLAIN DRUNK

Two young men, named E. P. B. and Wesley Merritt, were on Saturday afternoon arrested on a charge of being drunk and being the unruly on Park Street. They were subsequently committed on bail to appear tomorrow before the Magistrate.

EVENING CLOTHES

Did you ever have a touch of Evening Suit Anxiety? Pretty fierce, isn't it?

The principal symptom is the shudder that commences when you see some other fellow's suit that's so much better than yours, and that lasts till you take the blame thing off when you get home.

You won't feel just a bit better than the other fellow.

All the little details of elegance are worked into our Evening Clothes. They fit perfectly.

You'll feel just a bit better than the other fellow.

HOCKEY BY THE PROS.

Belleve Pros. Beaten By Port Hope-Brilliant Work Done By Both Teams-Visitors Grand Start In First Period-Belleve's Great Work In Second Period-Both Sevens Finished Strong, But Visitors The Best-Big and Enthusiastic Crowd.

The fastest and clearest game of hockey ever played on Belleve's ice, was the action opened by an old and ardent admirer of the sport, as he led night's game between the Port Hope and Belleve professional teams at the "People's Palace."

Port Hope, the game six years ago against the Belleve, and Victor's tough international at the last year, but although the team were fast and clever, the game was progressed slowly and the men of that time would not be in it with those of today, who have a handful of tricks that the old-timers know nothing of.

There is much commotion in the foregoing remarks, and the intelligence is indicated in the fact that, at least to a large extent, the weather was very unfavorable, the temperature being well down in the wind, and a strong wind was blowing, but the crowd, including a considerable number of Port Hope fans, were present in large numbers, and their favorites with the usual excitement of the game.

The first period of the game was in three periods of 20 minutes each, as the rules of the Professional Association.

THE PLAY.

It was 12:30 when, after the usual preliminary, the game began. The Port Hope team, led by the captain, played a very fast and strong game, and the Belleve team, led by the captain, played a very fast and strong game.

LIGHT THROWN ON THE GRAFT GORGES

Mr. Harry Burrell Gives A Statement As To How and When Certain Transactions Took Place—Serious Charges Against Mayor Marsh and Treasurer Price—A Fit Subject for Strictest Possible Investigation

It will be remembered that Sir M. McKenney, in addressing the public meeting held in the City Hall, on the 28th of December last, stated that, judging from the date of the sale to the Mayor's subscribers, and the Treasurer's accounts, it might be inferred that the lots were sold by the officials at a profit before the relations ceased. They are at much lower price. Mr. McKenney thus questions at least. How many more there are of a like character a little more inquiry may discover.

READ! READ!

It will be remembered that Sir M. McKenney, in addressing the public meeting held in the City Hall, on the 28th of December last, stated that, judging from the date of the sale to the Mayor's subscribers, and the Treasurer's accounts, it might be inferred that the lots were sold by the officials at a profit before the relations ceased. They are at much lower price. Mr. McKenney thus questions at least. How many more there are of a like character a little more inquiry may discover.

Mr. Ford, who eventually purchased some of the lots, purchased for two from the city on Russell Street, was advised by Mr. Price that they were under offer to sell in September. In October he was referred to the Mayor, who raised the price from \$75.00 to \$100.00; but eventually agreed to the original offer of \$75.00 in consideration of Mr. Ford's taking two lots that were not so well situated.

When the lots were desired to Mr. Ford, he found that they were only the lot, Smith on Taylor 110, closed a month after he had tried to buy them from the city. It was desired that the 2nd. He was prepared to pay \$75.00 in the lot, whereas Mr. Smith paid \$25.00. The profit in 15 days over \$500.

When the lots were sold Mr. Ford was advised by the Mayor that the Street was to be improved up, but apparently in none of the lots were sold, nothing was done about this.

You will be clearly from this that the lots were promised to Mr. Ford at \$75 each before they were sold to Mr. Smith at \$25. In other words, he was kept waiting for his lots while they were transferred to him at \$25, but he was told that the lots were sold to Mr. Smith at \$25.

Hoping this may make the matter clear to you, I remain, Yours very truly,

HARRY BURRELL.

N.B.—In explanation, I may say that Mr. Ford was acting for me.

JAN ROBERTSON IS THE THIRD, Special Coat Scaled.

His CAREER.

Jan Robertson, who is appearing at Griffin's Opera House on Wednesday, Jan. 11, as "The Stranger" or "The Wanderer" in "The Evening of the Third Floor Back," in which he has appeared several times, is a native of Scotland, is as strange a character, having spent some ten years in the Middle East in the company of Mahomet, Mahomet, Kismet, Bismarck, Lawrence, Bismarck, A. M. Palmer, Bismarck and Charles Foulton, and others. After his work of last year, he was then chiefly confined to stage-managing and playing leading roles in the famous theatre, Johnson's Theatre, before joining the latter he achieved no little distinction in the late Mr. Henry Irving, in whose London, London, company he appeared in "King Lear," "Othello," and "The Merchant of Venice" in the early nineties.

Probably, however, the zenith of his career has been reached by his work at the Theatre Royal, in "The Evening of the Third Floor Back," in which the most difficult parts as author has ever given in the past.

Mr. Robertson, at the end of a specially engaged and entire English company, will be seen in the play which ran in New York and London throughout the winter season, and has now here performed nearly 1,000 times in crowded and enthusiastic houses. "The Evening of the Third Floor Back."

CURRENT EVENTS

The good news has been handed out after a difficult day in sight for the York Lion shareholders.

It looks as if the Canadian Northern Ontario Railway company has managed to gain of "bonds" with the City Council and Property Owners Association.

The civic sale, according to reports, has been hard, all but a certain result.

The stock was a busy bird in Toronto last night, when nearly 9,000 children were kept to city.

Our Annual January Sale

Of Lines of Odd Goods Now On

When the weather man hands us a forecast of snow, we had not been so certain as to give away our lines of odd goods.

If there were no snow in the world that would the surest sign of our success.

Some men are good because the day has found no use for them.

Let not the sun go down on our store, and let not the day follow white with you in the snow.

Don't get a new suit that closely resembles your old suit for obvious reason.

We think we know our affairs best, but it is hard to bring our friends to agree with us.

ENERGY—THE POWER-HOUSE

Mind, the master architect, expends energy to the utmost limit of its will. Most men have weakness of it, when cannot be cured.

The brain of man is a power-house in which there are three dynamo. Were fed out from three dynamo in all parts and every organ of the body. The various parts or organs of the body are motors or engines that keep up their action by the energy they receive from the dynamo in the brain. The food we consume is the fuel which sustains latent energy. Digestion prepares this fuel for admission into the blood. The blood carries it to the nerve centers, or dynamo, where much of it is finally burnt up, consumed, and the latent energy, which held the food together in its fuel form, transformed into nerve force and safety, for use and motion.

Farmhouse Methods of Keeping Eggs Fresh

At a time when eggs are so expensive, it may not come amiss to know that even in old farmhouse methods were something to be learned when eggs were actually kept them against the time when chickens would lay one egg or maybe only two or three a week.

An old farmer says that one of the favorite methods of keeping eggs was that of coating the shell with mud. Ordinary gun shells were used when mud was melted slowly over the fire and applied to the eggs with the help of a wet brush. When set they were packed in dry charcoal and stored in ordinary dry boxes.

To preserve newly laid eggs for three months the better method is often employed in country places where a number of small water-tight pans are used.

across of a small village it would place, it may not come amiss to know that even in old farmhouse methods were something to be learned when eggs were actually kept them against the time when chickens would lay one egg or maybe only two or three a week.

An old-fashioned method of all, and one employed by a city family, is to obtain as many eggs as are needed for water use in late autumn, pack them in sand in the packing room which hold each egg separate, put them in a box in the cellar and they will keep fresh till late spring.

THE MAJESTY GOOD SPEAKER

Some of King George's Speeches are Modern Lucidity, Happy Wit, and a Good Speaker

Although King George, like his late Majesty, King Edward, is a natural aptitude and long training a ready and eloquent speaker, he has naturally neither the time nor the knowledge necessary to prepare many of the speeches he has to deliver. Take for example, the opening of a new wing to a hospital, for which it is necessary to give a history of the hospital and its work, to refer to the distinguished part it has played in the world, and so on. These are matters which call for a penman's hand, and the king's speech is naturally as frequent as the weather. The royal audience, therefore, is a natural gathering to his assistance, and the king's speech is naturally as frequent as the weather. The royal audience, therefore, is a natural gathering to his assistance, and the king's speech is naturally as frequent as the weather.

Purple Tablets on Valium

Two purple tablets of the famous speech are then made, and, armed with these, the committee arrange a conference with the King's Secretary, who, in turn, is made as comfortable as he thinks fit. The result is a speech which is usually rewritten to suit the king's taste.

FROM THE OLD-LAND

Little items of news from England, Ireland and Scotland—A Pathetic Story

The removal of the paper disqualifies the paper from being a paper in its own right. It is a paper in its own right, and it is a paper in its own right. It is a paper in its own right, and it is a paper in its own right. It is a paper in its own right, and it is a paper in its own right.

During a storm which broke over the Queen's house on the island of the Hebrides, the Queen's house was destroyed by water and collapse. Twenty or thirty people, mostly children, were crushed to death.

Scottish whisky statistics show that the year 1913 was the worst in the history of the trade. The production decreased by 1,000,000 gallons, and there were 250,000 gallons less than in 1912.

Thirty-seven weddings in seventy-three hours—The wedding of the year was the wedding of the year, and it was the wedding of the year. It was the wedding of the year, and it was the wedding of the year. It was the wedding of the year, and it was the wedding of the year.

Mr. Chamberlain has recently interested himself in the play of a good thing, and it is proposed to lay out the grounds at Highbury. The grounds are to be laid out in a park, and it is proposed to lay out the grounds at Highbury.

WONDER-SHINE

Cleans more silver in half-an-hour than pastes or powders in half-a-day—and cleans it better.

Madam! That's the reason why you should use WONDER-SHINE. It was first used in the great silver mines—a few WONDER-SHINE refiners found that old, rusty, useless bits of cleaning silver in a few minutes' time.

Now silver and gold may be better polished and given more lustre than before. WONDER-SHINE is a new and wonderful wonder in the world. It is a new and wonderful wonder in the world. It is a new and wonderful wonder in the world.

A MATRIMONIAL BUREAU

Its First Case and the Way the Bill Was Paid
By ESTHER KALLENBACH
Copyright, 1911, by American Press Association

The doorbell rang sharply and Estelle dropped the shopping bag and opened the door.

"What is it?" she asked, looking at the man who stood in the porch, his hat in his hand and a good looking man of forty.

"I am Mr. Wain," he said, looking at her. "I am looking for Miss Ward."

"I am Miss Ward," she said, looking at him. "I am looking for Miss Ward."

WE'RE AFTER YOUR MONEY

"QUALITY"

WE'RE not holding sales continuously, but when we do hold them we make things move. It's time for our "Annual Clean Up" on Overcoats and all Winter Stuffs. Prices have been cut to the limit. In cases, where lots are small, the profit and part of the cost also is sacrificed.

A discount of **20 p.c.** off all Men's, Boys' and Children's Overcoats, and on some odd garments even a greater reduction.

There is no investment you can make, sir, that will pay such a handsome dividend as an Overcoat investment made right now.

All our elegant coats go into this sale—no floor reserved.

ENERGY—THE HUMAN POWER.

We recently visited an electric plant having eight dynamos that supply energy for twelve elevators, three thousand lights twenty motors, besides lighting ten large factories. The eight dynamos in this power house are connected together, so that they furnish a common fund of energy. Several times the wires that conduct energy have become grounded and then a large amount of the electricity leaked away to the earth. Under this condition, the elevators were run and the dynamos lighting the dynamos were necessarily strained to their utmost capacity, which rapidly wears and tears them out, thus making the "brain" of this plant of very short life.

To be continued.
KEEG, RAY, OPTS.

ARE YOU FEEL TRED?

Do they ache and burn, have you rheumatism, or do they feel sore after standing a short time? If so, it is because you are not fitted with a pair of the Keeg, Ray, Opt's shoes, as the famous "Chickadee" for women. You will be delighted with them, as they have a mattress for the foot, and are not heated, rubbing feet, and will make life full of joy.

Keeg, Ray, Opt's shoes, for men and women.

WALE-PARMS BIG STEAMER

Stove in Steel Plates. Boat Crushed its Own Skull With Blow

NEW ORLEANS, La., Jan. 20.—The steamer "Wale-Parms" of the New York and New England Line, bound for New York, was wrecked on Saturday night in a heavy fog, and was crushed by its own bow.

Three days out from Boca del Nord near the mouth of the Mississippi, Captain Wale-Parms was wrecked on Saturday night in a heavy fog, and was crushed by its own bow.

The steamer's bow struck the shore and the ship was crushed. The bow was crushed and the ship was wrecked.

BRONCHITIS

To Whom It May Concern: Having, on May 4, 1910, been afflicted with bronchitis and a consequent run-down condition, I received no benefit from doctors or from trips to the sea for my health and I had to give up work. I was then advised by a friend from the second floor I commenced to improve—1 gallon in weight, strength, my bronchitis disappeared, and I am at work again.

Parmenter Bank, in Discussion, in the Commons.

He Asks For a Full Return of the Correspondence Regarding the Control of the Bank from the Legislature With a View to Looking Into the Inadequacy of the Banking System.

Ottawa, Jan. 24.—Mr. George E. Foster started the fitting in the Legislature today by presenting a bill in the House of Commons last evening, when he moved for a return of all correspondence received the conduct of the bank since its organization. Mr. Foster spoke at some length, and said that many of the resolutions appeared to be the methods pursued by the Finance Department and treasury board in not satisfying itself regarding the bona fides of the promoter, and the warning given by the superintendent of insurance of New York.

Mr. Wilfrid pointed out the statutory requirements, having been complied with, Mr. Foster said that he had to allow the bank to continue its operations.

Mr. Rogers (Hon. Attorney General) said the people who live along the banks of the Ottawa River are the ones who are the most interested in the matter.

Mr. Poirer said that the lack of water in the Ottawa River is a serious matter, and that the Government should take steps to develop the water power and to improve the navigation of the river.

WE INVITE THE LADIES TO VIEW THE EXHIBIT WE MAKE SATURDAY AFTERNOON AT 2 P.M. AT THE IMPROVED EARTHEN COOKING WALL.

The modern housekeeper has begun to learn that there are other ways of cooking food than by broiling, boiling, or roasting, all of which processes can be done at high heat. She has come to know that long, slow cooking, at a gentle heat, best conserves the nutritive elements of food and the flavors that render it most agreeable to us. It is this method of cooking that the earthenware cookery, with its close fitting cover has made possible for us.

Some of the lines we show:

Game Dishes, Milk Boilers, Hot Water Jugs, Stew Pots, Sauce Pans, Jelly Moulds, Entree Dishes, Stirred Egg Dishes, Hot Water Mullins, Bean Pots, Egg Poachers.

Custard Cups, Ramequins, TEA-POTS with percolators, and COFFEE POTS.

Ward Elections

From all appearances there is to be a municipal fight in Coleman and Foster Wards. This is gratifying, as it shows that at last the electors are taking some interest in municipal affairs.

Would Be Popular

A despatch from Ottawa to the Montreal Witness, dated January 25th, says:

It is said to be very probable that the successor to the late Judge McLaughlin, on the High Court Bench of Ontario, will be Judge C. D. Macaulay, of Dawson City, formerly of Belleville. Several Ontario men are being mentioned for the appointment, among them Messrs. Dwyer, and D'Amour, of Toronto, and McCreary, of London, and there has also been talk of a French-Canadian aspirant. It is to be hoped, that there is no strong word in evidence, and no such loss of time, in Dawson, and that Judge Macaulay will be the man elevated. He is a member of the Ontario Bar.

The Intelligencer hopes that the report is true, as Judge Macaulay is deservedly popular in this city, of which he was a resident.

A Change of Front

The letter which ex-Major Marsh addressed to the City Council which was read at the meeting of that body on Monday night, affords its intended effect, namely the stifling of investigation into the sale of city-land by himself and City Treasurer Price to their relatives, of which so much has been heard, and of which much more remains to be heard.

It is true, as urged by Mr. Marsh, that no formal charge against any person has been made in the matter? Are not the facts which have been laid before the people, particularly those stated in Mr. Burry's letter, accusation enough to justify investigation? Mr. Marsh has apparently forgotten that "he who accuses a man," or, in the homely but forcible language of Josh Billings, "when you see a snake's head sticking out of a hole, you may pretty well make up your mind that the snake is there."

Having failed in his frontal attack upon the Property Owners' Association by use of the allegation of political animus on the part of that body, Major Marsh, like the well-trained military man that he is, tried a cunningly-devised flank movement on that body, and in doing so effected a complete change of front on his part, in order to countercheck the attack upon himself by the P. O. A. by means of a judicial investigation into his conduct as trustee for the city in the sale of certain lands acquired at the tax sale. He attacks the P. O. A. not to bring representative of property owners and taxpayers, and therefore not entitled to ask for a judicial investigation. In this attack, too, Major Marsh fails, for it is competent for the Council to grant a judicial investigation on petition by thirty taxpayers; and certainly there are more than thirty taxpayers included in the membership of the Property Owners' and Taxpayers' Association. True, that course has not as yet been taken; but if Major Marsh is sincere in his statement in his letter above referred to, that he would "personally make a proper investigation into the sale of city-land," he should sincerely by inducing twenty-nine of his friends to unite with him in signing and forwarding to the Council the necessary petition?

REFUSES TO WED WAS ARRESTED

GOLDFIELD, N.Y., Jan. 24.—Grew Hall, a pretty Cincinnati girl, corresponded through the medium of a matrimonial agency with S. J. Leffert, of Bellingham, (representing himself to be a wealthy mining man. She is at the local hotel arrested with arrest for obtaining money under false pretences. She came to Canada for meeting and better understanding of his propositions and expense money. At Bellingham she was approached by Leffert, but not being impressed by his middle-aged appearance and bearing, she was warned in plain language in a small way, she desired her identity and name to Goldfield for further information, to be met at the station by deeply distressed with a warrant for her arrest.

She indignantly refused any interest of marrying Leffert, who also was under no contract to marry and was not being impressed by his middle-aged appearance and bearing, she was warned in plain language in a small way, she desired her identity and name to Goldfield for further information, to be met at the station by deeply distressed with a warrant for her arrest.

When asked if he is married, he replied "no," which is hardly to be believed, when before being taken, as they are then less liable to break.

MONTREAL, Jan. 25.—The token dollar for a kiss was the claim upon which a man was sued for \$200. The man was sued for \$200 for forcing a kiss upon a woman who had given him a dollar for a kiss.

SPLENDID SUCCESS ATTENDS FIRST ANNUAL DINNER—FAIR DAUGHTERS AND LOYAL SONS OF BELLEVILLE GATHER AROUND THE FESTAL BOARD

Tuesday, Jan. 24, 1911, was a big night for the Belleville Club of Chicago. The first annual dinner of the club was held at the Grand Northern Hotel in that city, and from every point of view was the most successful affair yet held by the club. About thirty club members, their ladies, and invited guests sat down to a very sumptuous dinner at the hotel, where the club makes its headquarters, one of the largest houses of the city, and which offers single justice to the good things set before them, listened to a programme of songs, music, and speeches that would be a credit to any organization, of any size, anywhere. The invited guests, and principal speakers were Dr. Thos. O'Hagan, editor of the New World of Chicago, a man whose friends in Belleville are numbered by the hundreds; Ben. Thos. J. Douglas, president International Railroad Old Boys Association; W. N. Patton, president of the British Empire Association; and in addition to these gentlemen there were present Mr. George Morrison, Mr. John M. King, editor Insurance Record, and Mr. Y. W. Hanson, of Chicago.

Just as the dinner commenced, a messenger, who had been sent by the President of the Club, a telegram from Mount D. V. Hanson, of Chicago, which was read by the President of the Club, the telegram contained a respectful request that the club should be invited to the dinner, and that the club should be invited to the dinner.

you "pigeon-hole" the propositions submitted to you? In short, are you the man who made a profit but not possess sufficient judgment to recognize the man or woman entitled to sympathy is the one to buy this or that property at \$100 or \$500, and acts as the person who makes such a statement and are you going to say five years from now that you sold to \$100 each, or are you going to be the man who has sold having bought property in this town in this year

Poe is located on the main line of the Grand Trunk Pacific Railway between Edmonton and Saskatoon. It is located in one of the finest farming districts in Western Canada. The surrounding country is settled by a progressive type of farmers and consequently will become the market centre for Northern Alberta. Poe district possesses rich coal mines, is close to rivers and lakes and large forests, are easily accessible from this point. These natural resources, insure for the residents of the town, first, low cost of living, and second, great commercial activity, two essentials in the upbuilding of a large town, thus creating valuable real estate.

This townsite and contiguous territory has the requirements outlined by large manufacturing concerns for the location of large factories or large enterprises of any kind employing large numbers of people. The rivers and lakes furnish water, the coal fields and forest furnish fuel and cheap building material, the fine farming lands furnish farm products, enabling the residents to live at a low cost.

The town is located on the main line of a transcontinental railway, assuring the necessary transportation facilities. These combined conditions will furnish cheap labor, one of the most important features of a manufacturing centre.

that Parian Sage be used by their hair dressers.

Parian Sage is now on sale in nearly every town of consequence in Canada, and has "enormous sales" wherever it has been introduced.

It is guaranteed to cure dandruff, stop falling hair and itching scalp in two weeks or money back.

It will make harsh, unattractive hair soft, lustrous and luxuriant in a few days. It is the ideal, delightful rejuvenating tonic that makes hair grow, it is not sticky or greasy, but like the other hair most pleasant, and delightfully perfumed—Parian Sage is sold by all druggists everywhere in large 50c. bottles, or postpaid from The Giroux Mfg. Co., Fort Erie, Ont. on receipt of price. Sold and guaranteed by J. V. Doyle.

Knowledge of his continued stay in Paris was the only revealing "clue" that enabled the FBI to obtain a photograph of the King. This photograph, however, was suppressed among the affair hushed up by a discreet display of international diplomacy.

Pursing the investigation, the Paris police found that the King's movements were such that the Paris police were driven nearly frantic in their efforts to guard him and keep his identity unknown.

"English detectives had a similar experience on Alfonso's last visit to England, when he spent much of his time in the company of actresses. His attent on at this time to Lily Elsie were so sagacious that a royal warrant was issued against her. The proceedings of his English relations had absolutely no effect upon the King.

Following his affair with Lily Elsie, Alfonso became infatuated with Mousie Delage, a famous Parisian dancer, who was the wife of Dr. J. H. Delage, a

land. So far Alfonso has given no hint to the worldlings. The gay life of Paris is said to have him there effectively in its clutches and there is no ground for believing that he will forsake his dissipation and respect of his wife in time to avert an upheaval and the greatest international scandal of recent years.

Congressman McCall Presents Tariff Agreement.

Members of Ways and Means Committee of the Lower H. on the way to Washington in Maine. Many things may happen to it—by Mr. McCall will tell the tale of Amended and Killed.

Washington, Jan. 30.—Representative McCall, a member of the Ways and Means Committee, yesterday introduced in the House the tariff reduction bill, which is the reciprocity agreement with Canada. The bill will pass through committee and come out on the floor of the House at a later date.

The first move will be to take up the bill at a meeting early in the month of February if any hearing will be held upon the measure. It is the hope of several members of the committee that it will be passed before the adjournment of the House.

There will be no extended hearings, and no opportunity to hear the bill at the tariff committee which is the only committee that has the right to amend the bill. The bill is the only one that has the right to amend the bill.

Watch Paper For the Grand List of Contestants In This Great Contest.

THE FIRST THING TO DO—Cut out the nomination blank, which will be found in each issue of The Intelligencer. Fill in the blanks with your name, etc., if you wish to nominate yourself, or with the name of anyone else whom you may choose to nominate. Be very careful to write plainly, so that there can be no possibility of an error being made. There is no doubt that many contestants will be careless in making out their nominations and subscriptions, though we wish to avoid it as far as possible, and will ask the co-operation of those interested in the contest. Please bear this in mind securing subscriptions to The Intelligencer.

Nomination Blank

Write plainly. It is advisable to use this blank, but nominations can be written on any paper. This coupon is printed for convenience only.

I Nominate

Address

District No.

AS THE MOST POPULAR CANDIDATE IN THE INTELLIGENCER CONTEST.

(Signed)

Date, 1911. Address,

One nomination sent in will count 1,000 votes if sent to The Intelligencer Contest Manager. The Intelligencer reserves the right to reject any objectionable nominations. Only one nomination blank allowed for each nominee.

The Two Districts are Divided as Follows:

DISTRICT NO. 1—All territory within the city limits.

DISTRICT NO. 2—All territory covered by The Intelligencer outside of the city limits. Remember, there are two grand prizes, one for each district, and ten district prizes for each of the two districts, 12 prizes in all. Special prize will be awarded from time to time during the contest.

THE ONLY CONDITION—Cut nomination blanks and submit carefully along the heavy red line and send to the office.

THOSE ELIGIBLE—Any lady of good character may become a candidate by being nominated in proper form.

THOSE EXCLUDED—No employee of a daily paper or dependent member of a family of such an employee will be accepted as a contestant. The Intelligencer also reserves the right at any time during the contest to refuse to admit any who, for any reason whatever, are deemed undesirable.

WITHIN THE DISTRICT—Each candidate must reside in the district in which she is nominated. Candidates are not confined to work solely within their district; the whole territory is a field for each contestant.

AS TO CONDITIONS—In accepting the nomination, each contestant agrees to abide by all of the above conditions and to accept the decision of The Intelligencer in any controversy that may arise.

THE SECOND THING TO DO

—Send or bring the nomination blank to Contest Manager of The Intelligencer, which will give you credit for 1,000 votes toward winning one of the 12 prizes, and will send you a receipt book to be used when securing subscriptions to this paper. A representative of The Intelligencer will call upon you and explain the proposition in detail, if you don't thoroughly understand it, and will render you any assistance possible. You must know that we are anxious to have you in the race, otherwise we would not spend so much time and use so much space in talking to you about it. We shall keep this up until we have you interested, either for yourself or for one of your friends.

THE THIRD THING TO DO—As soon as you are nominated, get out among your friends; get them to subscribe for The Intelligencer, giving you their votes (vote scale will be found in each issue of the paper). Send the subscriptions to the Contest Manager, together with the amount covering each subscription. An early start will be of great advantage to you as a few of these will put you high up in the list that you won't want to alter afterwards, either. All you need to do is to keep on working. Pay no attention to how many votes some one else has; look after your own candidacy, and one who has a good example for the other contestants.

SCHEDULE OF VOTES

THE FOURTH THING TO DO—As soon as you have secured one subscription, go after another. This does not mean that you will be compelled to lose any time which should be spent looking after your business, whatever that may be. You are to understand that this work may be done during your leisure moments, though even if you were to spend your time doing nothing but securing subscriptions to The Intelligencer, the reward for your labor would quite suffice to repay you many times over. Think what a wonderful profit would be yours were you to win our First Grand Prize, that \$400 Heintzman Piano and the \$300 Kohler-Campbell Piano purchased from W. B. Riggs.
